FLEXIBLE PLUG-IN COOLING COUNTER WITH INTEGRATED PLUS FOR SAFETY

The self-cooling, plug-in SIRIUS® PIN refrigerated display counter offers a modern and flexible solution for displaying refrigerated goods. It can be placed anywhere in the room independently of a central refrigeration system, offering significant advantages, particularly for flexible utilization requirements. Since no separate maintenance room is required, installation is straightforward and space-saving. The modular design makes the refrigerated counter particularly reliable in operation.

READY TO PLUG IN

Ready to connect with 230 V Schuko plug (plug-in). Equipped with an integrated propane-based refrigeration unit (R290) and an air-cooled finned condenser.

SIRIUS®3 MODULES AVAILABLE

All SIRIUS®3 modules are available in widths of 130, 200, 260, and 360 cm and with a projection depth of 82 or 88 cm.

COMPLIES WITH DIRECTIVES

Meets the highest quality and safety standards, as well as the Eco-Design Directive and F-Gas Regulation.

FLEXIBILITY

Our plug-in refrigerated display counter reduces your installation costs, offers maximum flexibility in terms of placement, and allows you to start selling immediately.

MOBILITY

Flexible positioning on castors possible; optional feet for stable positioning.

AUTOMATIC CONDENSATE EVAPORATION

Condensate evaporation takes place automatically via a (hot gas) tray, which can be removed for easy cleaning. Alternatively, a fixed waste water connection can also be used.

YOU BENEFIT FROM

Operational reliability

If one cooling unit fails, the other modules continue to run

Flexibility

Flexible and can be used anywhere – no technical room required

Protective construction

Maximum safety thanks to structural separation of electrical and cooling components
